

CALL FOR PROPOSALS

PRICIT Doctoral Workshop

We welcome Ph.D. proposals to the PRICIT¹ Doctoral Workshop organized on 15 and 16 April 2021 (Virtual).

The PRICIT Doctoral Workshop provides a platform for doctoral students to present their research on accounting topics including (but not limited to) financial accounting, auditing, corporate governance, accounting history, environmental accounting, or management accounting. The Workshop offers doctoral students an opportunity to present, discuss, receive feedback, and exchange comments and views in an inspiring academic community of fellow Spanish Ph.D. students and experienced researchers. This is also an opportunity to build academic relationships. This first edition will go VIRTUAL.

The Doctoral Workshop calls all interested doctoral candidates to submit their research proposals for review and feedback. The research proposals should typically include the following structure:

- Introduction/problem statement/definition
- Brief literature review
- Conceptual development
- Proposed methodology
- Outcome/anticipated results

Each submission will undergo a review process. Both early-stage ideas and more advanced projects are welcome, but they should be sufficiently developed such that feedback can be useful.

The Doctoral Workshop also offers two keynote discussions, and an opportunity to gain mentorship on devising the most effective strategy for writing and submitting papers to leading Journals.

The workshop is free of charge for registered attendees. It is possible to attend the doctoral workshop without submitting a proposal. Participation from PhD students at early stages is particularly encouraged.

Key dates for the Ph.D. research proposal and submission

All submissions should be in English and directed to accounting.doctoral.workshop@uam.es as a single PDF file. Those not submitting a proposal should send an e-mail to request participating in the Doctoral Workshop, so that they can be formally registered and receive any updates. Questions can also be directed to the same e-mail.
